

Vol. 94 July-Dec., 1966

An Author-subject index
Compiled by the Library of the National Safety Council

- ABRASIVE WHEELS**
Portable grinders. Data sheet 583. Aug., 42-45.
- ABRASIVES**
Factors in detecting and correcting floor slipperiness--slips and falls, part I (Santos). Oct., 30-31, 35.
Safety sand program (Off the job). Oct., 264.
- ACCIDENT INVESTIGATION**
Amended S. 3052 would remove prohibition against disclosure of information developed in federal agency reports on highway accident investigation (Wire). Aug., 95.
The CAB amended its Safety Investigation Regulations (Wire). July, 98.
Fundamentals of accident investigation (Wolff). Aug., 31-32.
A proposed Department of Transportation (bill H.R. 13200), would have an independent office of accident investigation (Wire). Aug., 97.
- ACCIDENT PREVENTION**
APEX--a system for rating accident prevention effort (Payne). Sept., 38-40.
- ACCIDENT RECORDS**
Irony (The safety valve). Sept., 100.
Record regained by Du Pont's Chattanooga Nylon Plant (Safetybriefs). Sept., 22.
- ACCIDENT STATISTICS**
Measuring industrial safety performance. Dec., 36-41.
Missouri toughens up (Safetybriefs). Nov., 19.
1965 over-all accident death rate up 2 per cent (Smith). Sept., 34-37.
Property damage--safety's missing link (Bird). Sept., 24-29.
Recording and measuring employee off the job injury experience (Belknap). Aug., 36-39.
Some injury frequency rates for some specific industries 1965-1964 (Wire from Washington). Nov., 94.
See also specific subject.
- ADHESIVES, See EPOXIES**
- AERIAL BASKETS**
Basket guard (Ideas that worked). Nov., 58.
- AERONAUTICS**
Air safety campaign successful (Wire from Washington). Nov., 94-95.
Items on federal airport aid; and aircraft noise (Wire from Washington). Sept., 78.
1965 over-all accident death rate up 2 per cent (Smith). Sept., 37.
Passenger survival--FAA proposed eleven changes in safety rules (Wire from Washington). Oct., 250, 289.
Pilot skill level--CAB recommendations (Wire). Aug., 99.
- AIR POLLUTION**
Air pollution conference (Wire). July, 96.
Fuel additives and environmental pollution (Wire). Aug., 98.
1966 legislation reviewed (Wire from Washington). Dec., 63-64, 110.
Pollution control from federal installations (Wire). Aug., 98-99.
Pollution control in highway projects aided by federal funds (Wire). Aug., 99.
- ALCOHOL DRINKING AND DRIVING**
Alcohol blood test upheld in court decision (Wire). Aug., 97-98.
- S. 3052 and H.R. 13290 directed study of relationship of alcohol consumption and highway safety be made (Wire). Aug., 95, 97.
- AMPUTATIONS**
Trap or safety device? (Voice of reader discusses failure of power press manufacturers to provide proper fail-safe guards). Dec., 6.
- Andrews, Bill
Diary of a safety engineer (fiction). Monthly department.
- ASSOCIATIONS**
AIHA announces annual awards (Personals). July, 114.
AMIE elects new officers (Personals). Aug., 66.
ASA superseded by U. S. A. Standards Institute. Oct., 55.
ASSE elects 1966-67 officers (Personals). Nov., 82, 84.
Highlights of new NFPA Industrial Section meeting. July, 32.
ISEA elects officers for 1966-1967 (Personals). Oct., 269.
MCA accelerates environmental health program. Sept., 108.
NFPA elects new officers (Personals). July, 112, 114.
1966 Association Award winners announced. Nov., 67.
OFEI kit (Voice of reader). Sept., 12.
Officers and committees elected for another year of the SFPE, section of NFPA (Personals). July, 114.
Safety films committee names new officers (Personals). July, 112.
Three to head AGA accident prevention group (Personals). Nov., 82.
United we act (The safety valve). Oct., 260-261.
Virginia Safety Assn. elects new officers. July, 114, 116.
- ATOMIC ENERGY**
AEC revises record keeping of radiation exposure for workers in the atomic energy industry (Wire from Washington). Nov., 92, 94.
Amend Atomic Energy Act with respect to nuclear incidents (Wire from Washington). Nov., 92.
1966 legislation reviewed (Wire from Washington). Dec., 63.
Three appointed to reactor safeguards committee (Personals). Nov., 86-87.
- AUDIO-VISUALS, See EXHIBITS & FAIRS; FILMS; TELEVISION**
- AWARDS**
AIHA announces annual awards. July, 114.
NSC Public Service Award winners announced. Oct., 283-284.
NSC's Trustees Awards go to Delaware, and Indianapolis. Nov., 40, 89.
1966 Association award winners announced. Nov., 67.
One man's nest... (Safetybriefs). Aug., 20.
Patterson receives Monsanto safety award (Personals). July, 116.
Safetycast sweeps awards (Safetybriefs). Aug., 20.
Shipshape--annual safety awards presented by AMMI (Safetybriefs). Nov., 18.
Technical paper awards presented at thirteenth Annual Awards Luncheon of the ASSE (Personals). Nov., 85.
See also PERSONALS

BALDWIN AMENDMENT

The Baldwin Amendment (originating in Title III of the President's Traffic Safety Act) as passed and amended by the House and Senate (for state programs). (Wire). Aug., 94-97. What are federal safety standards? (Rosenfield). Aug., 51.

Bamford, Vincent

Rockets join fire-fighting weaponry (Article is made up of many quotes from Mr. Bamford). Oct., 36-38.

BARRICADES

Portable barricade (Ideas that worked). Aug., 46.

Barry, Ron

Safety in the USSR. Aug., 22-28.

Bartalini, C. R.

Is the construction industry lulled by magic numbers? Sept., 30-32.

Belknap, Robert G.

Off the job. Monthly department. Recording and measuring employee off the job injury experience. Aug., 36-39.

Bird, Frank E., Jr.

Property damage--safety's missing link. Sept., 24-29.

Bishoff, Fred

How the army insures materiel safety. Nov., 41-42.

BOOK REVIEWS

Guide to the prevention and suppression of dust in mining, tunnelling, and quarrying (Safety library). International Labor Office. July, 118, 120.

Human performance in industry (Safety library).

K. F. H. Murrell. July, 118.

Spare your back (Safety library). Margit Eklundh. Aug., 87.

A spark lighted in Portland (Safety library).

A. L. Todd. Sept., 89.

Techniques for controlling air pollution from the operation of nuclear facilities, Safety series no. 17 (Safety library). International Atomic Energy Agency. Nov., 96.

Breuning, Siegfried

Congress report--research methods sketched: systems analysis. Dec., 51.

Bruce, J. Campbell

The inflatable raft: sure survival at sea. Aug., 33-35.

BUILDING MATERIALS

Fire prevention with interior finish materials. July, 70, 72.

CALIBRATION

Calibration data sought (Safetybriefs). Aug., 20.

Cameron, Will

Mr. Cameron used to say that people could prevent accidents if they wanted to. (The safety valve). Aug., 79.

CARBON MONOXIDE

Labor session item tells of hazardous placement of car fresh air intake. Dec., 49.

CASE HISTORIES

The case of the crying crane. Aug., 40-41.

The case of the greaseless gears. Oct., 40-41.

The case of the unheeded warning. Nov., 56-57.

Fire case histories. July, 38-40.

Hard hats for heavy equipment operators (Consultation corner). Dec., 10, 12.

CHAIN SAWS

Also from the Liberty Mutual accident prevention workshops--a signaling device. Dec., 35.

CHEMICAL LABELING

Child safety bill--(as it relates to the Federal Hazardous Substances Labeling Act). (Wire from Washington). Oct., 292, 295.

Labeling rules amended for an antifreeze, and for certain fire extinguishers (Wire from Washington). Nov., 92.

Cheshire, Max

Safety equipment certification in New Zealand. Nov., 52.

CHILD SAFETY

Child safety bills (Wire from Washington). Oct., 290, 293.

Hearings reopened on H.R. 13886 (Child Safety Act) (Wire from Washington). Nov., 95.

1966 legislation reviewed (Wire from Washington). Dec., 68, 74.

Vigorous year-round off-job safety program nets big accident reduction at Merrimack Valley Works. Sept., 63.

CLUBS

Golden Swans (Voice of the reader). Oct., 8.

COMMUNICATION

Group decision and safety (A psychologist's view of safety: IX.) (Planek). July, 128-129.

Vigorous year-round off-job safety program nets big accident reduction at Merrimack Valley Works. Sept., 62.

CONFERENCES

Coming events. Monthly department.

CONSTRUCTION

BPR looks into traffic hazards at highway work-sites (Wire from Washington). Nov., 97.

California decree aims at safer construction equipment. Nov., 50-51.

Congress report--portions of labor session "What's bugging you"--on enforcement of health and safety rules. Dec., 48-49.

Construction safety goes to school. Oct., 39.

Fire prevention with interior finish materials.

July, 70, 72.

Front-end loaders. Data sheet 589. Nov., 60-64, 67.

The headache ball (Voice of reader). Nov., 8, 10.

Mounting heavy-duty tires and rims. Data sheet 411 (revised). Dec., 54-59.

1966 legislation review--road construction (Wire from Washington). Dec., 110.

Prefab sprinklers (Safetybriefs). July, 19.

Restrictive ruling on TV towers, and other high structures (Wire from Washington). Sept., 78.

Safety program makes inroads in South Viet Nam. Dec., 42-43.

Train coupling installed on loaders (Ideas that worked). Nov., 59.

See also SHIPYARDS

CONSTRUCTION STATISTICS

Construction: a high-hazard industry? Sept., 33.

Is the construction industry lulled by magic numbers? (Bartalini). Sept., 30-32.

U.S. eyes construction industry (Safetybriefs). Oct., 18.

CONSULTATION CORNER

Consultation corner (Smith). Monthly department.

CORRECTIONS

Cold fact omitted (Voice of reader). Sept., 8.

(See "Engineers team dry chemical, water to protect LNG tank" News, July 1966, 50.)

Solving the jug puzzle (Voice of reader). Sept., 8. (See News, July, 1966, 39-40 "Chance lens focusses sunlight.")

CORROSION

Corrosion led to explosion of boiling hydrocarbons (Case history). July, 39.

COSMETICS

Child safety bill--poisonings from cosmetics (Wire from Washington). Oct., 295.

COSTS OF ACCIDENTS, See ECONOMICS OF SAFETY**CRANES**

The case of the crying crane. Aug., 40-41.
The headache ball (Voice of reader). Nov., 8, 10.

DAMAGE CONTROL

Property damage--safety's missing link (Bird). Sept., 24-29.

DATA SHEETS

Fire brigades. 588. Oct., 44-54.
Front-end loaders. 589. Nov., 60-64, 67.
Mounting heavy-duty tires and rims (rev). 411. Dec., 54-59.
Portable grinders. 583. Aug., 42-45.
Silicon diode grounding devices. 581. July, 58, 60, 62, 64.
Tractor operation and anti-roll bars. 587. Sept., 50d-51, 55.
About data sheets. Oct., 54.

DIARY

Diary of a safety engineer (Fiction) (Andrews). Monthly department.

DRIVERS

Government leads DIP users. Sept., 50.
How did you rate on the National Drivers Test on CBS? (The safety valve). Aug., 79.
Improvement for 10,000 in Pennsylvania (Safetybriefs). Oct., 18.
Phase in "Defensive driving"--"DIP" to be renamed "Defensive Driving Course" (Safetybriefs). Nov., 18.
S. 3052 authorizes for three-year period \$75 million for driver education (Wire). Aug., 95.
Safetycast "National Drivers Test" sweeps awards (Safetybriefs). Aug., 20.
Vigorous year-round off-job safety program nets big accident reduction at Merrimack Valley Works. Sept., 62-63.

DRUGS

Child safety bill (Wire from Washington). Oct., 290, 292, 295-296.
Does the Pill reduce accidents? (Safetybriefs). Oct., 18.
Hearings reopened on H.R. 13886 (Child Safety Act) (Wire from Washington). Nov., 95.

Dudrow, D. E.

Corporate manager of health and loss prevention at U.S. Rubber Company, initiated kit system for off-the-job safety programming. Aug., 65.

Dunn, J. P., and others

Guide lines for the safe use of lasers. Oct., 20-27, 306.

DUST

Intrinsic safety for hazardous locations (Hopkins). July, 31.
Seacoal dust explosion (Case history). July, 40.
Welding sparks ignite sugar dust (Case history). July, 40.

ECONOMICS OF SAFETY

Missouri toughens up (Safetybriefs). Nov., 19.
1965 over-all accident death rate up 2 per cent (Smith). Sept., 34-37.
Property damage--safety's missing link (Bird). Sept., 24-29.

ELECTRIC LINES AND TOWERS

Hearings on S 2507, and S 2508 regarding overhead, and underground high voltage lines (Wire). July, 92.
Study to be made on impact of transmission lines and towers (electric) on public safety (Wire from Washington). Nov., 92.
Transmission lines--1966 legislation reviewed (Wire from Washington). Dec., 63.

ELECTRICAL EQUIPMENT

Defective light causes explosion (case history). July, 39.
Double insulation overseas (Safetybriefs). Aug., 20.
Fire causes checklist--electrical. July, 42.
Intrinsic safety for hazardous locations (Hopkins). July, 28-31.
Misinstalled adaptor causes short circuit (Case history). July, 39.
Silicon diode grounding devices. Data sheet 581. July, 58, 60, 62, 64.
Tempest in a coffee pot (Case history). July, 38.

ELECTRICAL INDUSTRY

Self-policing for rural electricians (Safetybriefs). Oct., 18.
Standards for the bird on the wire (Safetybriefs). Aug., 20.

EMPLOYEES

Blind--but safe (The safety valve). Sept., 101.
Federal injury frequency rate declined in one year through Mission Safety-70 program (Wire from Washington). Sept., 80.
Fringe benefits (The safety valve). July, 110.
New Division of Federal Employee Occupational Health and Safety established by USPHS (Wire). Aug., 99.
Safety in the USSR (Barry). Aug., 26-27.
So what's new (Diary of a safety engineer) (Andrews). Dec., 96-97.

ENVIRONMENTAL HEALTH

MCA accelerates environmental health program. Sept., 108.
See also AIR POLLUTION; WASTE DISPOSAL; WATER POLLUTION.

EPOXIES

Sticky solution to welding hazard. July, 48-49.
Where to get epoxies (Voice of reader). Sept., 8, 10.

EXHIBITS & FAIRS

Exposition guide, 1966 National Safety Congress. Oct., 57-240.
Safety fair at Greenwood, South Carolina (Off the job). Sept., 66.
Two photographs of the ISEA safety equipment exhibit donated to the National Safety Council. Sept., 59.

FALLS OF PEOPLE AND OBJECTS

Elusive factor in falls: the shoe sole (Hopkins). Nov., 34-39.
Factors in detecting and correcting floor slipperiness--slips and falls, part I (Santos). Oct., 30-31, 35.
Look out, not up (Safetybriefs). Nov., 18.
Rained out--shipyard accidents (Safetybriefs). Nov., 19.
Welder's revenge (Safetybriefs). Sept., 22.

FATIGUE

The case of the tired truck driver. Sept., 41.
Liberty Mutual studies industrial fatigue criteria. Dec., 32-35.

FEDERAL ASPECTS, See TRAFFIC - FEDERAL ASPECTS; U.S. BUREAUS & DEPARTMENTS

Ferber, B. I.

Bureau of Mines updates respirator criteria.
Nov., 54-55.

FILMS

For women only? (Safetybriefs). Sept., 22.
Outstanding safety films (Voice of reader).
Sept., 10, 12.
Safety films committee names new officers
(Personals). July, 112.

FIRE EXTINGUISHERS

Engineers team dry chemical, water to protect
LNG tank. July, 50.
For flammable liquid fires only--NFPA fire
extinguisher performance report form. July,
33.
Labeling rules amended (Wire from Washington).
Nov., 92.
Low-cost extinguishers help Monsanto boost
off-the-job safety. July, 47.
Rockets join fire-fighting weaponry. Oct.,
36-38.

FIRE PREVENTION

Additions and revisions to NFPA standards. Nov.,
108, 110-112.
Costly dependence on electric current (Case
history). July, 40.
Fighting tornado-spawned plant fires (Osann).
July, 34-37.
Fire case histories. July, 38-40.
Fire causes checklist--eleven sources of igni-
tion of industrial fires. July, 41-46.
Fire hose cover (Ideas that worked). Dec., 61.
Fire loss soars in 1965 (Safetybriefs). Sept.,
22.
Fire prevention week (Wire from Washington).
Sept., 80.
Fire prevention with interior finish materials.
July, 70, 72.
Fire product data: brand names, catalogs, manu-
facturers, etc. July, 140-196.
How do you remove the chain reaction? (Consulta-
tion corner). Dec., 10.
Mass fires made easy--electronic mass fire simu-
lator (Safetybriefs). July, 19.
New and tentatively adopted standards of the
NFPA. July, 32.
"OOT" fire gun (Safetybriefs). July, 19.
Prefab sprinklers (Safetybriefs). July, 19.
Rivalry sharpens fire brigade skills. July, 26-
27.
Self-contained sprinkler system (Safetybriefs).
July, 19.
Valve spotters (Ideas that worked). Dec., 60.
See also FLAMMABLE LIQUIDS; SMOKING

FIRE PREVENTION TRAINING

Fire brigades. Data sheet 588. Oct., 44-54.
Marin pompiers (Safetybriefs). Aug., 20.
The St. Regis fire school (Hopkins). July, 22-25.

FIREWORKS

1966 legislation reviewed (Wire from Washington).
Dec., 74.

Fish, Carman

The safety valve. Monthly department.

FLAMMABLE LIQUIDS

For flammable liquid fires only--NFPA fire
extinguisher performance report. July, 33.
Intrinsic safety for hazardous locations
(Hopkins). July, 31.
See also GASOLINE

FLOORS

Carpeting vs. vinyl tile (Consultation corner).
July, 10, 14.
Factors in detecting and correcting floor slip-
periness--slips and falls, part I (Santos).
Oct., 30-31, 35.
Fire prevention with interior finish materials.
July, 70, 72.

The HPS slipmeter. Oct., 34.

FOREIGN COUNTRIES

Canada--APEX, a system for rating accident pre-
vention effort (Payne). Sept., 38-40.
--Congress report--session "What's bugging
you"--question on Canadian handling of health
and safety rules. Dec., 49.
--Looking to the north? (Safetybriefs).
Aug., 20.
China, People's Rep. of (Communist)--Glorious
injuries (Safetybriefs). Nov., 18.
Denmark--Double insulation overseas (Safety-
briefs). Aug., 20.
--Pop-out chuck key (Ideas that worked).
July, 55.
France--Elusive factor in falls: the shoe sole
(Hopkins). Nov., 36-39.
Great Britain--Pinup poster (Voice of reader).
Nov., 10, 12.
--Royal snub (Safetybriefs).
Sept., 22.
Japan--Rockets join fire-fighting weaponry--
American and Japanese researchers close in on
long-range fire-fighting techniques. Oct.,
36-38.
--Tanker lifeboat foils fires. July, 127.
New Zealand--Safety equipment certification in
New Zealand (Cheshire). Nov., 52.
Peru--AIHA announces annual awards: Yant
memorial award to Dr. Alberto Hurtado
(Personals). July, 114.
South Africa--Juveniles on the job (The safety
valve). July, 108-109.
South Viet Nam--Safety program (construction)
makes inroads in South Viet Nam. Dec.,
42-43.
USSR--Safety in the USSR (Barry). Aug., 22-28.

FORKLIFT TRUCKS, See TRUCKS - INDUSTRIAL

FRICTION

Fire causes checklist--friction. July, 46.
Inferno from friction (Fire case histories).
July, 38.

FRONT-END LOADERS, See CONSTRUCTION

GAS INDUSTRY

Engineers team dry chemical, water to protect
LNG tank. July, 50; see also Voice of
Reader, Sept., 8.
FPC regulations require prompt reporting of all
natural gas transmission pipeline accidents
(Wire from Washington). Nov., 92.
Gas pipelines (Wire). July, 92, 94.

GASOLINE

Fuel additives and environmental pollution
(Wire). Aug., 98.
Spilled gas creates holocaust (Case history).
July, 39.

GIMMICKS

No magic (The safety valve). July, 108.
Safety dice (Ideas that worked). Sept., 47.
Safety sand program (Off the job). Oct., 264.

GOGGLES

Do safety lenses magnify? (Consultation corner).
Oct., 12, 14.
Guide lines for the safe use of lasers (Worden
and others). Oct., 27.
Lens tester. Oct., 43.
Mothered by necessity (Safetybriefs). Oct., 18.
A personal crusade (The safety valve) (Fish).
Dec., 82.
Student eye protection (Safetybriefs). Aug.,
20.

GRAIN ELEVATORS

Inferno from friction (Case history). July, 38.

GRINDING WHEELS, see ABRASIVE WHEELS

GUARDS

- Basket guard (Ideas that worked). Nov., 58.
- Canvas guard (Ideas that worked). Sept., 47.
- Car haul operator guard (Ideas that worked). Oct., 43.

HANDICAPPED

- Blind--but safe (The safety valve). Sept., 101.

HANDLING MATERIAL

- Chain lock (Ideas that worked). Dec., 61.
- The case of the unheeded warning. Nov., 56-57.
- Cruel slave (Safetybriefs). Sept., 22.
- Mishandling caused explosion of drums of magnesium (Case histories). July, 38.
- See also CRANES; CONSTRUCTION

HANDS AND ARMS

- Trap or safety device? (Voice of the reader talks about power press pull-back "safety devices." Dec., 6.

HEALTH, See ENVIRONMENTAL HEALTH; OCCUPATIONAL HEALTH

HEARING

- New hope at New Hope. Dec., 44-45.

HEATERS

- Fire causes checklist--open flames. July, 43.

HEROISM

- The red badge of courage (The safety valve). Sept., 100-101.

HISTORY

- The stinking century (The safety valve). Oct., 261-262.

HOLIDAYS

- Collision spurs holiday campaign in Indiana. Nov., 53.
- Holiday campaigns (Off the job). Nov., 70, 74.

HOME SAFETY

- Family safety inventory (Off the job). Oct., 264, 266.
- Fire prevention with interior finish materials. July, 70, 72.
- Home safety checklist (Off the job) (Belknap). Aug., 64.
- Lehr of PHS gave figures for home injuries from power equipment, fireworks, burns (Wire from Washington). Oct., 298.
- Low-cost extinguishers help Monsanto boost off-the-job safety. July, 47.
- 1965 over-all accident death rate up 2 per cent (Smith). Sept., 35, 37.
- Product safety--National Commission on Hazardous Household Products proposal (Wire from Washington). Oct., 296, 298.
- See also OFF THE JOB

Hopkins, Stuart K.

- Elusive factor in falls: the shoe sole. Nov., 34-39.
- Intrinsic safety for hazardous locations. July, 28-31.
- Manufacturers exhibit "safety conscious" industrial trucks. Oct., 28-29.
- The St. Regis fire school. July 22-25.

Halbert, Slade

- Congress report--research methods sketched: behavioral. Dec., 50.

HYDRAULIC OIL LINES

- Hydraulic oil line break (case history). July, 38.

HYPERBARIC CHAMBERS, See OXYGEN APPARATUS

INSPECTION

- Fundamentals of safety inspection (Koch). Aug., 29-30.

IDEAS

- Ideas that worked (Kelly). Monthly department.

INSTRUMENTS

- The HPS slipmeter. Oct., 34.
- Intrinsic safety for hazardous locations (Hopkins). July, 28-31.
- Liberty Mutual studies industrial fatigue criteria. Dec., 32-35.
- Silicon diode grounding devices. Data sheet 581. July, 58, 60, 62, 64.
- "Subjective" loudness meter developed by CBS (Safetybriefs). Nov., 18.

IRON AND STEEL

- Is the construction industry lulled by magic numbers? (Bartolini). Sept., 30-32.
- Safety in the USSR (Barry). Aug., 22-28.

Iskrant, Albert F.

- Congress report--research methods sketched: epidemiological. Dec., 50.

Kelly, Arthur S.

- Ideas that worked. Monthly department.

Knapp, L. K., Jr.

- Congress report--research methods sketched: engineering. Dec., 50-51.

Koch, E. E.

- Fundamentals of safety inspection. Aug., 29-30.

LABOR UNIONS

- Congress report -- selected portions of session "What's bugging you"--questions and answers from panelists. Dec., 48-49.
- Is the construction industry lulled by magic numbers? (Bartolini). Sept., 32.
- Safety in the USSR (Barry). Aug., 26.

LABORATORIES

- Hazard foreseen--NBS's "hazards laboratory" (Safetybriefs). Nov., 18-19.

LADDERS

- Curved ladder tops (Ideas that worked). Nov., 59.
- Ladder loft (Ideas that worked). Aug., 47.

LASERS

- Guide lines for the safe use of lasers (Worden and others). Oct., 20-27, 306.

LATHES

- Pop-out chuck key (Ideas that worked). July, 55.

LEAD HAZARDS

- Fuel additives and environmental pollution (Wire). Aug., 98.

LEGISLATION

- 1966 legislation reviewed and a look ahead (Rosenfield) (Wire from Washington). Dec., 63-64, 73-78, 110.

LIABILITY

- Amend Atomic Energy Act with respect to nuclear incidents (Wire from Washington). Nov., 92.
- See also PRODUCT SAFETY

LIFE RAFTS

- The inflatable raft: sure survival at sea (Bruce). Aug., 33-35.
- Lift raft backlog (Safetybriefs). Nov., 19.
- Lowering inflated rafts (Voice of reader). Nov., 12, 16.
- Tanker lifeboat foils fires. July, 127.

LIFTING

- "Lift correctly" (Voice of reader asks if card with model is available). Aug., 8.
- Maximum weight to be carried by a worker (Wire). Aug., 99.

LIGHTING

- Defective fluorescent light ballast (Case history). July, 39.
- Defective light causes explosion. July, 39.

LIQUEFIED PETROLEUM GAS

- Open flame ignites vapor cloud (Case history). July, 38.

MAGNESIUM

- Mishandling caused drum explosion (Case history). July, 38.

MANAGEMENT

- Congress report--session explores roads to better safety management. Dec., 51-52.

MANHOLES

- Manhole cover puller (Ideas that worked). Aug., 47.

MARINE INDUSTRY

- Examination of foreign passenger vessels (Wire from Washington). Sept., 78, 80.
- Hearings on bills for regulation of ocean cruises, and standards for passenger vehicles (Wire). July, 96.
- Longshoremen's safety and health regulations amended (Wire). July, 96.
- Marin pompiers (Safetybriefs). Aug., 20.
- Move recommended to amend the Safety of Life at Sea Convention (Wire). July, 96.
- 1966 legislation reviewed (Wire from Washington). Dec., 73-74.
- Ocean cruise safety bill H.R. 10327 passed by Senate (Wire from Washington). Oct., 289-290.
- See also LIFE RAFTS

METHANE

- Bureau of Mines--regulations on monitoring methane systems (Wire from Washington). Aug., 99; Oct., 250.

MINERAL INDUSTRIES

- Congress passes 8989 to promote health and safety in metallic and nonmetallic mineral industries (Wire from Washington). Oct., 245-246.
- Health and safety in mineral industries (Wire). Aug., 98.
- Mineral industry safety record improves (Wire from Washington). Nov., 94.
- The president signed H.R. 8989 (metallic industries) into law as P.L. 89-577 (Wire from Washington). Nov., 92.

MINES

- Bureau of Mines injury data (Wire from Washington). Oct., 250.
- Coal mine injuries (Wire from Washington). Sept., 70.
- "Injury experience worsens somewhat" (Wire from Washington). Nov., 94.
- 1966 legislation reviewed (Wire from Washington). Dec., 63.

 Adams, Carl B.--Continental Oil splits safety function. Oct., 268.
 Allen, C. A.--Industrial conference leaders - 1967, chairman of sections. Dec., 79.
 Allovio, Joseph M.--IMC names loss prevention manager. Sept., 96.
 Baker, Nathan G.--Baker cited by Udall. Nov., 82.
 Barberi, Dan E.--Barberi succeeds St. Regis' MacPike who retired as safety director. Oct., 268.
 Beadle, Kenneth N.--P.I.E. elects VP--safety. Oct., 268-269.
 Becard, Marcel H.--Appointed vice-chairman of N.Y. state safety committee. Oct., 268.
 Bell, Z. G.--To new post at FPG as manager of industrial hygiene. Oct., 268.

Biancardi, M. F.--Industrial Conference leaders --1967, chairman of committees. Dec., 79.
 Biles, Martin B.--Appointed head AEC safety division. Dec., 98.
 Bock, Edward J.--Elected to vice-chairman of committee at MCA. Oct., 272.
 Boyer, Norbert H.--New safety appointments at Calumet & Hecla. Oct., 270.
 Braun, Daniel C.--A portrait, and a quote from session on measuring industrial safety performance. Dec., 39, 40.
 Briggs, Colver R.--Safety changes at Ford Motor Company. Oct., 270, 272.
 Brown, Douglas W.--Safety director U.S. Steel, following retirement of Dan Farrell. Sept., 96, 98.
 Burbush, LeRoy C.--ITT subsidiary names safety-security manager. Aug., 66.
 Burch, Alan--Congress report--portrait and quote from a labor session "What's bugging you." Dec., 49.
 Carpenter, Scott--Portrait, and quote from a speech at the National Safety Congress Aerospace session. Dec., 47.
 Carroll, Edward B.--Three promoted at Norton Company. Sept., 99.
 Christian, Arthur H.--ASSE elects 1966-67 officers; Christian is president. Nov., 82, 84.
 Cole, John W.--New safety appointments at Calumet & Hecla. Oct., 270.
 Coonley, Robert T.--New trustee elected for ISEA. Oct., 269.
 Crippen, E. R.--P.I.E. appoints two new safety directors. Sept., 96.
 Creeden, John B.--Liberty Mutual names assistant chief engineer. Sept., 96.
 De Nault, Robert C.--Calumet & Hecla make new safety appointments. Oct., 270.
 Dowling, John--Congress report--portrait and quote from a labor session, "What's bugging you." Dec., 48.
 Etter, Irvin B.--Named general superintendent of Wheeling Steel. July, 112.
 Ewing, L. C.--Ewing to new safety post for Atlas Chemical Industries. Nov., 82.
 Farrell, Dan--U.S. Steel's Farrell retires. Sept., 96.
 Ford, Paul G.--Technical paper award. Nov., 85.
 Friesenborg, N. G.--Elected a trustee for ISEA. Oct., 269.
 Gikas, Paul W.--White Motor Corp. names Gikas consultant. Oct., 270.
 Greene, Charles--Congress report--portrait, and quote from a labor session "What's bugging you." Dec., 48.
 Greenslade, Cyril A.--Europe's first Veteran of Safety. Oct., 269.
 Grimaldi, John V.--Technical paper award. Nov., 85.
 Griswold, Nelson D.--Retired from Dow Chemical. Sept., 98.
 Guzowsky, Alex--Succeeds retiring McRae at CV&I Steel as safety engineer. Oct., 269-270.
 Haeusler, Roy--Follow-through--comments by Mr. Haeusler to Walt Radmilovitch, now that the President has signed the traffic bills (The safety valve). Nov., 90-91.
 Harriss, Edward B.--Elected a trustee for ISEA. Oct., 269.
 Hill, Fred S.--Technical paper award. Nov., 85.
 Hough, Warren A.--Joined loss prevention firm. July, 114.
 Irish, Don E.--AIHA announces annual awards--Cummings memorial to Don Irish. July, 114.
 Johnson, Joseph E.--Named SPFE president, July, 114.
 Johnson, Mabel H.--Connecticut Safety Society elects new president, and other officers. Aug., 66, 68.
 Junkin, John I.--Elected VP of ISEA. Oct., 269.
 Kirchmeier, Edwin C.--Joined loss prevention firm. July, 114.
